

Protekt

A Natural Fly & Insect Repellent For Dogs

Ingredients: Purified Water, Isopropyl Alcohol, Botanical Essential Oils and Coconut Palm Oil.

Protekt Is Available In Two Different Formulas:

1. A concentrated **Water Base Protekt** formula that can be diluted with water according to desired strength. A slight shake is required prior to using the water/Protekt mixture. A pleasant non-sticky formula with minimal oil residual.
2. A single strength **Oil Base Protekt** formula. The Oil Base Protekt may last a little longer than the water base. Dose application of the Oil Base Protekt may also be lower.

Product Profile:

Effective Fly Repellent: Protekt is designed to provide dogs with immediate, long lasting relief from flies and other insects.

Concentrated Formula: Can be diluted with water or oil (depending on which Protekt formula is used) to desired strength and concentration.

Flexible Application: Use as a spray-on or a wipe-on. Protekt is designed to be applied directly to the dog, however it can be sprayed on bedding and boxes to repel flies from the immediate area.

Natural Ingredients: Protekt is formulated with natural botanical essential oils, and contains no drugs, pesticides, or GMO's.

Pleasant To Handle: Protekt has a clean, pleasant smelling, non-sticky formula to help avoid undesirable oily build-up.

Economical To Use: Custom mix Protekt to meet your specific needs for optimum value and performance.

Protect and Comfort Your Dogs with Protekt!
